For the eleming up around he cometery, councillor Ellis moved that the Municipality go in with the Village 50-50 to furnish the labor up to \$5000. tarried unanimously.

Secretary road a communi. ation from the Department of Agriculture re enforcing formers to take care of the weeds on he road allowances adjoining his farm, it being pointed out that the Noxious Weeds Act revides that a farmer is be center of the road allowmees. The council left this for ifuture meeting, as there was not a full council present.

Secretary read a communivation in respect to an inquiry ce hours of work, etc. No

With an Electric Range there is no combustion. Therefore no products of combustion spread through your kitchen and home soiling walls, drapes, and furniture. Your home stays clean always. It's cooler, too, because Electric Ranges are insulated to prevent radiation of cooking heat. And, in actual cooking, there is no waste or spoilage. Automatic controls give you exact cooking temperatures and times. You get full-flavored meals in less time, with less effort, and at surprisingly little cost.

ELECTRICALLY

The Modern Way to Carefree Days

For those who require their ranges to heat their kitchens in the wintertime, there are Combination Coal-Electric Ranges now available at their dealer's.

In conjunction with an Electric Range, an installation to give a constant supply of Hot Water at Special Low Rates can be obtained.

Confidence

What is most needed today in all walks of life is confidence. No matter how serious things look if we have confidence things will not appear as bad and indeed will come our way. Last week many in Chmpion were downhearted because there was no rain but at least some moisture has come.

Do not paint the picture of the crop or war black but keep cheerful. All will come right in the end.

Dominion of Canada

At the session of the Canadian Weekly Newspaper Association held in Calgary last week, the term most stressed was the need for unity in our war effort. We should not think ourselves as citizens of Alberta but rather of the Dominion of Canada united for a common purpose. In adjusting our thinking on national basis we shall have no difficulty in presenting a united front and support our civil and military leaders.

War Co-operation Report

Hon. C. P. Reaubien presented the first report of the Special Committee on War Co-operation

NEWS REEL-

Mr. Grieson, of the Government Motion Picture Bureau, appeared before your committee and told of the efforts of his organization to assist in attaining the objectives your committee has in mind by means of new reel presentations. The members of the committee were much impressed by Mr. Grierson's account of the Bureau's activities and by the character of the work done. Suggestions were made to him and were welcomed by him as to other efforts that might be exerted.

Carmangay Stampede continued.

George Baille of Champion were judges.

All racing events were slow as the track was heavy from a recent rain. The 58 mile open Delbert Carroll of Claresholm and M. Sarnson of Spring Coulee. First in the Relay was A. Holfoway of Milo and second was M. Williard of Milo. R. Clancy of Stavely and A. Long of Claresholm placed first and second in the Bootleggers Race.

Both the Potato and Barrel Races were cancelled as time did not permit their running,

In the Indian Race, 1 mile free for all, Good Ride was first and Ed Many Guns was second Pat Bad Eagle won the Indian Democrat Race and Joe Crow Shoe placed second.

All proceeds were donated to charitable and community work.

Hopkins-Bjornson

Line Elevator Companies

In an effort to maintain a market for any wheat the farmer may wish to sell, representations were recently made at Ottawa by Line Elevator Companies, to have the Dominion Government provide for the hedging of country purchases and remove the 5,000 bushel limitation on deliveries to the Wheat Board, said a statement

issued recently by The North-West Line Elevators Association.

"For some time past the Line Elevator Companies have been con-cerned over the market outlook", said the statement. "The rapid and draw. the statement. "The rapid and dras-tic change in the international situ-ation due to the invasion of Norway, Belgium and Holland, followed by declaration of war by Italy and col lapse of European France, coupled with the prospect of a large carry-over of wheat in Canada, made it obvious that the Government would have to take temporary measures to protect the price structure until they could formulate a policy to take care of the present situation and the marketing of the crop in the approaching season."

"When the Federal Government requested the minimum price at which wheat could be traded, following the break in prices, the situation

ing the break in prices, the situation was only partially met. A delegation from the North-West Line Elevators Association visited the Government and stressed the need for the pro-vision being made for hedging cash purchases made in the country in the event of the price dropping down to the minimum price and no buyers being prepared to take grain at that

"The farmer with under 5,000 bushels of wheat is taken care of through being able to deliver his wheat to the Canadian Wheat Board at the guaranteed price of 70 cents p bushel. In order to take care of the farmer with more than 5,000 bushels to market all Line elevator companie are operating selling agencies under the Wheat Co-operative Marketing Act 1939. Farmers who have delivered their full quota to the Wheat Board may deliver the balance of their grain to any of these sales agencies and obtain the Government guaranteed initial advance of 56 cents

"In the meantime The North-Wes Line Elevator Association continues to watch the situation closely and will endeavor to have formulated a policy which will provide the farmer with a ready market for his wheat, in addition to the protection of a Govern ment guaranteed price", the state ment concludes.

A STATEMENT ON FORD WAR WORK IN CANADA

This Company is in the war to the full limit of its resources. Until the British Empire is victorious, until the battle for freedom of nations and liberty of peoples is won, we have pledged all the vast manufacturing facilities of our Canadian and overseas affiliated companies to the service of the Empire.

We regard this to be our simple duty as a Canadian institution, one of the industrial resources of the Dominion. The 8,400 employees in our plants as well as our widespread dealer and service organization from coast to coast are Canadian. The Company's shareholders include a large proportion of Canadian investors. No one individual, family or company has a majority control of our shares. our shares.

For these reasons, aside from our deep feeling of loyalty to the Empire and its high purposes, it is fitting that Ford Motor Company of Canada, Limited should give whole-hearted support to the national war effort.

From the very beginning this has been our course. Even before war was declared, in co-operation with officers of the Department of National Defence, we laid in our plant the groundwork of military production. Since conflict became a reality we have given war orders precedence over everything else. More than fifty per cent of our production is in vehicles for military use and this percentage is increasing rapidly. percentage is increasing rapidly

We are now engaged in supplying approximately 35,000 motorized vehicles of many types, of which 10,000 are for the Canadian government and 25,000 for other Empire

We are constructing at our own expense a \$700,000

plant addition to provide facilities for the building of Universal machine gun carriers of which we have undertaken to deliver fifty a week to the Canadian government as soon as production can be started. This addition will also enable us to increase production of other types of military vehicles. Our affiliated companies with plants in South Africa, Australia, New Zealand, India and Malaya are similarly engaged in Empire carriers. are similarly engaged in Empire service.

Beyond our manufacturing facilities we have been for-tunately able to contribute skilled man-power. From our Canadian and overseas organization, engineers and men with special training in transport and other lines are rendering valuable service.

Major adjustments in our business have been necessary through loss of export trade and because of domestic taxation. We have made these adjustments cheerfully. Our one concern now is the successful prosecution of this war so that people of all nations may again be able to work in freedom and peace.

> PRESIDENT FORD MOTOR COMPANY OF CANADA, LIMITED

Statement in Parliament by the Hon. C. D. Howe, Minister of Munitions and Supply

"The president of the Canadian Company has shown perhaps as keen a desire to assist in Canada's war effort as any citizen of this Dominion has done. His corporation since the outbreak of the war has done and is doing very important work for Canada's war effort, in the way of building motor transports and Universal carriers. The company has placed itself entirely in the hands of the government as to the terms of the contract which it has had.

"A contract, providing for a fixed price as low as we could find any basis for asking, was worked out; an overriding provision was inserted that the books of the company would be audited and if the stipulated price produced a profit more than a very low percentage indeed, that price would be scaled down accordingly. In other words, the work of the Ford Motor Company of Canada, its attitude toward the war, and its ability to assist in Canada's war effort, have been so far as I have been able to observe, beyond criticism."

Statement in Senate by Senator Raoul Dandurand, Government Leader in the Senate

"Ford Motor Company of Canada is doing its utmost to serve the interests of the country, the War Supply Board and the Government."

Statement in the Senate by Rt. Hon. Arthur Meighen, Conservative Leader in the Senate

"They (Ford dealers in Canada) are numbered in the hundreds. And the number of employees of these dealers is very large. The ramifications are tremendous. For all the purposes concerning us, the Company is a Canadian concern, and I can add to the assurance given by the honourable leader of the House my own feeling that there are no better Canadians than those at the head of the Ford Motor Company of Canada and throughour that Company's organization. They will assist us to the utmost in our war work."

Women's Auxiliary Motor Service

Women's Auxiliary Motor Service
Early in the war the Ford Motor Company
of Canada, Limited, organized free training courses for women in the care and
operation of motor vehicles for possible
war service, 284 such chasses have been
conducted, with an enrollment of 7,343.
The number who have completed the
eight-week course is 3,47'3,with 2,656 now
under instruction and 1,214 enrolled in
new classes about to start. All instruction
and equipment has been furnished by Ford
dealers and the Company without charge.

Types of Motorized Vehicles for Military Use Being Made by Ford Motor Company of Canada

The Company is engaged in manufacturing 35,000 motorized vehicles for Canadian and overseas governments. They include light two-wheel drive trucks, known as 8-cwt., which are used for carrying light stores, personnel or wireless sets; 15-cwt. units, used to transport heavier

loads, personnel, as anti-tank guntractors, water tank carriers, etc.; 30-cvt. four-wheel drive, used as load carrier; three-ton, four and six whe els, for heavy loads, for workshops, for w recking equip ment, etc.; four-wheel drive gun tractors us d to haul artillery, as we'll as ambulances and regular passenger cars: and station wag ons specially fitted and painted for army purposes. Present schedule of deliveries of these military vehicles constitutes more than 50 per cent of the Company's production. The plant is working day and night.
